About the FDP :

Since time immemorial, mankind has witnessed multifarious crises following which the entire world has undergone metamorphosis innumerable times. Having said that, history has been a constant reminder and concrete proof of the fact that we have survived every fall.

However, every such crisis does an irreparable damage to every section of the society. Regardless of where one looks, it is most likely the women who suffer the most. The ongoing pandemic too, yet again, has given us a crystal clear picture of the vulnerability enshrouding the women in our society.

The main motive of this FDP is to throw light on their sufferings – physical, psychological, emotional and economical; and further analyse their role and survival strategies during the pandemic. This FDP is our genuine effort to understand the dynamics of the roles, especially played by women during COVID 19.
