Identification of Problems and Action Taken Report:

- In order to deal with the slow learners, focus had been directed to eliciting specific deterrent factors of individual students. Some slow learners were found to be lacking in critical reading and understanding of texts. Some others were not competent in either reading or writing. Quite a few students were also found to be passive listeners having poor retention capacity. Attempts had been made to develop critical reading skills among the students by demonstrating how a text (prescribed in their syllabus) can be critically interpreted in different ways. They were also given tips on developing writing skills such as using simple words and grammatically correct short sentences. Attempts had also been made to make them

familiar with the techniques of developing active listening skills and strengthening their retention capacity. By encouraging them to interact in the class room and involving them in group discussions and panel discussions, attempts were made to develop their communicative skills.

- Special classes on Basic English Grammar were held to develop their grammar skills.
- Family issues deterring students were dealt with very carefully through counseling sessions held whenever necessary.
- Students having expertise in extra-curricular activities were referred to Physical Education Department for seamless progression.
- Advanced learners were assigned extra works such as analyzing texts from interdisciplinary perspectives, developing academic writing skills, etc.
- The progress of students is measured through their performance in Sessional Examinations, Seminar Presentation, Group Discussion and their interaction in the class.

QUESTION:- Discuss the scoot's model of motivation and human needs and Kimble and Gammezy motivation behaviour model. (10 marks)

ANSWER:- SCOOT'S MODEL OF MOTIVATION AND HUMAN NEEDS

(I) Need: Any need present in the individual does not necessarily lead to action. The need has to be activated which is the function of incentive. Need is the starting point of motivation. An unsatisfied need creates tension that stimulates drives within the individuals. These drives generate a search behaviour to achieve a particular goal that will satisfy the need and lead to reduction of tension.

Needs may be associated with Intimacy objectives like needs of Acquisition, Retention and orderliness. Needs may also be concerning Human power like Dominance, Autonomy and Differences etc.

About the Seminar

Introduction

The North Eastern Region (NER) refers to the easternmost region of India comprising of eight states and it shares borders with five South Asian countries Nepal, Bhutan, China, Myanmar and Bangladesh. The region accounts for 7.9 percent of the country's land space and is the territory of around 3.8 percent of India's population. The North-East Region is one of the back-ward regions of India characterized by low per-capita income, low capital formation, in-adequate infrastructure facilities,

geographical isolation and communication bottleneck, inadequate exploitation of natural resources like mineral resources, hydro power potential, forests etc. Apart from these, there are inter-state differences with respect to their resource endowments, level of industrialization as well as infrastructural facilities.

After independence, the Government of India (GOI) has persistently tried in developing sustainable livelihood and integrating approaches to tackle poverty in India. In addition, employment generation to eradicate poverty was accepted as a goal of development planning. Since 1960s, series of measures were taken such as nationalization of banks, expansion of rural branch networks, mandatory system of priority sector lending, extension of subsidized credit, establishment of regional rural banks (RRBs) and the Integrated Rural Development Program (IRDP). These initiatives have increased rural outreach and credit volume to some extent. However, higher operational costs as well as unviable and unprofitable institutional structure conceived these programmes as supply led and not demand driven. In addition, the lack of entrepreneurial skills and absence of backward and forward linkages led to the failure of government initiatives. Huge non-performing assets (NPAs) weakened the strength of financial institutions and further reduced their interest in rural areas. The era also witnessed the establishment of apex institutions such as National Bank for Agricultural and Rural Development (NABARD) and the Small Scale Industries Development Board of India (SIDBI) and many civil societies, which were extending credit to poor.

In order to encourage entrepreneurship, GOI has come-up with various initiatives such as the National Rural Livelihood Mission (NRLM), National Urban Livelihood Mission and National Rural employment guarantee scheme to reach out to poor families and link them to sustainable livelihood opportunities. Skill India - a multi-skill development programme has been launched in 2014 with a mission for job creation and entrepreneurship for all socio-economic classes. It strives to establish an international equivalent of the Indian framework on skill development, creating workforce mobility and enhancing youth employability. The Union Budget 2015 launched the National Skill mission to complement Prime Minister's 'Skill India' and 'Make in India' initiatives.

- The key issues flagged for discussion in the seminar are**
1. Microfinance and Livelihood Approach
 2. Capital Formation in Agriculture and Rural Infrastructure
 3. Rural Finance- Role of Government

Sub themes

1. Role of local self-government in sustainable rural livelihood
2. Microfinance and Financial Inclusion in NE Region- Access and Impact
3. Rural Marketing and Infrastructure for sustainable rural livelihoods
4. Rural Financing and Rural Credit- Role of NABARD and RRBs
5. Economic Empowerment of Rural Women through Self Help Group and Micro Finance
6. Role of Poverty Alleviation Programmes in Rural Development
7. Agrarian Structure and Occupational Diversification in NE Region of India
8. Role of Non-farm activities in uplifting Rural Poor
9. Health, sanitation, education and other factors as a precursor for rural development.
10. Information and Communication Technology for Agriculture and Rural Development.
