About the Seminar

Introduction
The North Eastern Region (NER) refers to the easternmost region of India comprising of eight states and it shares borders with five South Asian countries Nepal, Bhutan, China, Myanmar and Bangladesh. The region accounts for 7.9 percent of the country's land space and is the territory of around 3.8 percent of India's population. The North-East Region is one of the back-ward regions of India characterized by low per-capita income, low capital formation, in-adequate infrastructure facilities,

geographical isolation and communication bottleneck, inadequate exploitation of natural resources like mineral resources, hydro power potential, forests etc. Apart from these, there are inter-state differences with respect to their resource endowments, level of industrialization as well as infrastructural facilities.

After independence, the Government of India (GOI) has persistently tried in developing sustainable livelihood and integrating approaches to tackle poverty in India. In addition, employment generation to eradicate poverty was accepted as a goal of development planning. Since 1960s, series of measures were taken such as nationalization of banks, expansion of rural branch networks, mandatory system of priority sector lending, extension of subsidized credit, establishment of regional rural banks (RRBs) and the Integrated Rural Development Program (IRDP). These initiatives have increased rural outreach and credit volume to some extent. However, higher operational costs as well as unsustainable and unprofitable institutional structure conceived these programmes as supply led and not demand driven. In addition, the lack of entrepreneurial skills and absence of backward and forward linkages led to the failure of government initiatives. Huge non-performing assets (NPAs) weakened the strength of financial institutions and further reduced their interest in rural areas. The era also witnessed the establishment of apex institutions such as National Bank for Agricultural and Rural Development (NABARD) and the Small Scale Industries Development Board of India (SIDBI) and many civil societies, which were extending credit to poor.

In order to encourage entrepreneurship, GOI has come-up with various initiatives such as the National Rural Livelihood Mission (NRLM), National Urban Livelihood Mission and National Rural employment guarantee scheme to reach out to poor families and link them to sustainable livelihood opportunities. Skill India - a multi-skill development programme has been launched in 2014 with a mission for job creation and entrepreneurship for all socio-economic classes. It strives to establish an international equivalent of the Indian framework on skill development, creating workforce mobility and enhancing youth employability. The Union Budget 2015 launched the National Skill mission to complement Prime Minister's 'Skill India' and 'Make in India' initiatives.

The key issues flagged for discussion in the seminar are
1. Microfinance and livelihood Approach
2. Capital Formation in Agriculture and Rural Infrastructure
3. Rural Finance- Role of Government

Sub themes

1. Role of local self-government in sustainable rural livelihoods
2. Microfinance and Financial Inclusion in NE Region- Access and Impact
3. Rural Marketing and Infrastructure for sustainable rural livelihoods
4. Rural Financing and Rural Credit- Role of NABARD and RRBs
5. Economic Empowerment of Rural Women through Self Help Group and Micro Finance
6. Role of Poverty Alleviation Programmes in Rural Development
7. Agrarian Structure and Occupational Diversification in NE Region of India
8. Role of Non-farm activities in uplifting Rural Poor
9. Health, sanitation, education and other factors as a precursor for rural development.
10. Information and Communication Technology for Agriculture and Rural Development.

International Seminar on Small Tea Growers Its Impact on Tea Industry And The Way Forward organized by Golaghat Commerce College and Small Tea Growers Association on 7th April, 2018

An International Seminar on “Emergence of Small Tea Growers, Its Impact on Tea Industry and the Way Forward” was jointly organized by Golaghat Commerce College and All Assam Small Tea Growers Association on 7th April, 2018 on the occasion of the 10th Triennial Golaghat State Convention, All Assam Small Tea Growers’ Association. The program was organized by Golaghat Commerce College and Assam Small Tea Growers Association. Many renowned dignitaries namely Mr. Nepul Saikia Chairman NETA, Mr. Manoj Jallanex-Chairman North Eastern Tea Association (NET), Mr. Malpani executive member NETA, Mr. Manoj Jallan, Director Golaghat Tea Estate, Mr. Kamal Buzarbaruah, VC, Assam Agricultural University, Mr. Bijay Gopal Chakrabarty, Chairman, All India Small Tea Growers Association were present in the seminar. Though as a Higher Educational Institution we are not directly involved in the arena of production and manufacturing of tea and the problems associated with the tea industry, we are not quite novice in this field as well. The college is running a post-graduate diploma course in Tea Plantation and Management in collaboration with North Eastern Tea Association (NETA) and this experience has put us in

an advantageous position in comparison to other Higher Educational Institutions in the district to organize an International Seminar on a topic of such practicability associated with the stakeholders of the tea industry in Assam. Teaching staff of the Institution were encouraged to attend the seminar and 32 teachers from the college attended the seminar. Quite a good number of small tea growers from major tea producing countries like India, Sri-Lanka, Nepal and Bangladesh participated in the seminar, and some of them presented their papers as well

Issues like the colonial legacy of tea still haunting tea industry, the emergence of small tea growers in variegated geo-economic and socio-cultural conditions, and the problems faced by STGs in contradistinction to the ones encountered by the larger tea estates etc. were discussed in the seminar. In the course of the discussion it was pointed out that while the blenders and marketing channels appropriate ever increasing profits, the small farmers have to bear the burden of fluctuating and falling commodity prices. In his profile, the small-holder tea grower is devoid of knowledge, starved of resources and lacking in organization particularly in respect of doing effective marketing. It emerged from the discussion that while farmers need some help in production, they need more help in manufacturing and most help in marketing.

About the Seminar

India is the 3rd largest agro-based country in the world with varied climatic and geographical conditions. Agriculture, with its allied sectors, is the largest livelihood provider in India. It contributes a significant figure to the Gross Domestic Product (GDP). In many crops, the country is experiencing self-reliance in production. The production technology has also improved the productivity of many crops. In spite of improvement in production technology and self-reliance in some crops, the farmer community in rural areas are facing the problems of marketing. He stressed on the relevance of the topic chosen for the seminar and mentioned about the basis of our economy being the agri based products and the agriculture sector. The basis of economy is agriculture, in this context he emphasis on increasing the purchasing power of the village people. He also mentioned about the weekly bazaars where agricultural products are being sold and purchased which generate huge revenues. He also mentioned about the Govt. initiative taken in this regard specifically "Make in India" which reduce the use of imported products and the positive influence it has on the rural economy of India. The environment of North East (NE) facilitates the production and cultivation of many agricultural products. In this regard, he mentioned about bamboo plants, dried fish, tea, etc, over the time the production/cultivation of these items have reduced in NE and other states are capturing the major share of the market in case of these products. There is a lack of marketing strategy in case of the products manufactured in NE. In this respect "Branding" in highly

significant. He mentioned about branding of “Bora Chawl” and “Joha Chawl” in this regard. Such concepts have to be developed among the youths. The New Education Policy may be helpful in these cases as students shall be able to gather knowledge from various fields. He mentioned about various kinds of agricultural products which require market research and marketing strategy to promote it, in this respect, he mentioned about “Bhoot Jolokia”, “Khorisa” etc. Lack of market research and storage facilities are some factors restricting the growth of rural markets. The chief guest of the seminar Mr. Subhajit Choudhury was introduced to all and it was followed by his speech. He discussed about the role of Assam in freedom movement and due recognition must be given to all the martyrs. Books like “The Beautiful Train”, “Ancient Education Heritage of India” and others will enlighten us about Indian education system. Nalanda University, Preachings of Lord Krishna, Lord Ram and others are source of our knowledge. The Mughal dynasty tried to ruin us by destroying the educational system. Access to artificial technology is a crisis for human society and it is only religion/ faith which can help us to sail the difficult time. During freedom movement young girls and boys sacrificed their lives. The 19 rail derailment in Assam was a historic defeat to Britishers. The teachings of Srimanta Sankardev were a source of motivation to the fighters. World War II has changed the geographical dimensions of country, the common wealth nations, secret agencies, etc changed the societal practices. We must dig deeper into the matters, link and build the history again which will give freedom in real terms. Deeper insight into freedom movement might hint that our actual independence day is 18th July, 1947. Nehru policy has delayed our independence. He ended his speech by expressing his gratitude to all involved in the seminar.

Speech given by Chief guest Mr. Subhajit Choudhury

Keynote speaker Dr. Dambarudhar Nath, Vice Chancellor, Majuli Cultural University stated the relevance of the topic in the present scenario to put Assam in national platform. He works on culture, language and other aspects of history. The term “ Bharatbarsha” stands for a cluster of geographical territory formed by diverse culture and same is the position of Assam formed by varied tribes and community like Ahom, Koch, Kachari, Miri (Mising) and Hilly tribes. Assam has been a integral part of India’s freedom struggle, we must try to immortalize the sacrifice of our martyr for betterment of our future. Assam has been part of Partition of Bengal, Non cooperation movement and all freedom struggle but it has not been given due reorganization in Indian history. These raises the question why freedom fighters like Mani Ram Dewan, Kanaklata Barua, Piyoli Phukan, Dariki Das, biju Vaishnav, Kamala Miri, Kushal Konwar not known in national platform, in that era what the intellectual group did, why martyr like Gumdhor Konwar is unrecognized. It can be considered that struggle in Assam started far ahead than India in 1828. The sociological aspects of those who contributed towards must be studied. The history of Assam must be rethought, reinterpreted, studied with proper perspective. Research scholars and students must write and study of Assamese culture and must be presented in English for world to recognize.

Keynote speaker, Dr. Dambarudhar Nath, Vice Chancellor, Majuli Cultural University

Hemanta Dhing Mazumdar, State Organising Secretary, Shishu Siksha Samitee, Vidya Bharati Assam Khetriya Sangathan Mantri, Uttar Purba Bharat began his speech by asking the audience about date and time. He believes that we are not free from British rule as we still follow their time, date, month. When we think of freedom we only talk about British and freedom fighters but there are many more people who sacrificed their lives, yet to be recognized. The time needs to be changed and Bharatiya Itihas Samity is working for it. The history of British should not be followed; history means Ramayana, Mahabharat, Upanisads, Vedas. Our mother tongue is our identity; we should talk, write in Assamese to save ourselves. He expressed his gratitude to all and prayed for everyone's welfare.

Dr. Soumitra Puzari, Associate Professor, HOD of History Department, Jorhat College greeted everyone. In the 75 years of independence the contribution of old Assam has not been brought to limelight. The historians should work on new themes and ideas of history like his Ph. D. work to bring new aspects of history. Work must be done on grassroot level to know the real history.
