About the Seminar

Introduction

The North Eastern Region (NER) refers to the easternmost region of India comprising of eight states and it shares borders with five South Asian countries Nepal, Bhutan, China, Myanmar and Bangladesh. The region accounts for 7.9 percent of the country's land space and is the territory of around 3.8 percent of India's population. The North-East Region is one of the backward regions of India characterized by low per-capita income, low capital formation, in-adequate infrastructure facilities,

geographical isolation and communication bottleneck, inadequate exploitation of natural resources like mineral resources, hydro power potential, forests etc. Apart from these, there are inter-state differences with respect to their resource endowments, level of industrialization as well as infrastructural facilities.

After independence, the Government of India (GOI) has persistently tried in developing sustainable livelihood and integrating approaches to tackle poverty in India. In addition, employment generation to eradicate poverty was accepted as a goal of development planning. Since 1960s, series of measures were taken such as nationalization of banks, expansion of rural branch networks, mandatory system of priority sector lending, extension of subsidized credit, establishment of regional rural banks (RRBs) and the Integrated Rural Development Program (IRDP). These initiatives have increased rural outreach and credit volume to some extent. However, higher operational costs as well as unsuitable and unprofitable institutional structure conceived these programmes as supply led and not demand driven. In addition, the lack of entrepreneurial skills and absence of backward and forward linkages led to the failure of government initiatives. Huge non-performing assets (NPAs) weakened the strength of financial institutions and further reduced their interest in rural areas. The era also witnessed the establishment of apex institutions such as National Bank for Agricultural and Rural Development (NABARD) and the Small Scale Industries Development Board of India (SIDBI) and many civil societies, which were extending credit to poor.

In order to encourage entrepreneurship, GOI has come up with various initiatives such as the National Rural Livelihood Mission (NRLM), National Urban Livelihood Mission and National Rural employment guarantee scheme to reach out to poor families and link them to sustainable livelihood opportunities. Skill India - a multi-skill development programme has been launched in 2014 with a mission for job creation and entrepreneurship for all socio-economic classes. It strives to establish an international equivalent of the Indian framework on skill development, creating workforce mobility and enhancing youth employability. The Union Budget 2015 launched the National Skill mission to complement Prime Minister's 'Skill India' and 'Make in India' initiatives.

The key issues flagged for discussion in the seminar are
1. Microfinance and Livelihood Approach
2. Capital Formation in Agriculture and Rural Infrastructure
3. Rural Finance- Role of Government
