## About the Seminar

National Education Policy provides for rigorous research-based specialisation by giving opportunities for multi-disciplinary work including industry, opportunities for internships with local industry / businesses-houses; actively engaging with the practical side of learning, all of which are bound give impetus to entrepreneurship. The role of Higher Education is clearly to meet the socio-economic needs of the country whilst safeguarding social justice and democratic values. Education in North-East India is quite different from rest of India due to reasons such as geographical location, cultural, regional and linguistic diversity. Education policies framed at national level are often driven by comprehensive objectives, which needs a bottom-up restructuring specially for North-East India. Education including entrepreneurship is critical as it contributes to job creation and helps considerably to reduce poverty. Addressing the issues with proper policy adoption will help in the achievement of the target of by the job seekers to motivate to be an entrepreneur. The Seminar is intended to present the relevance of NEP in the context of innovation
